Summary

Junior Full-Stack Developer specializing in Laravel and Vue.js, experienced in building scalable SPA applications using Inertia.js and Nuxt.js. Skilled in RESTful API development, authentication systems, database design, and responsive UI implementation.

TECHNICAL SKILLS

- **Front-end Development**
  - HTML5, CSS3, JavaScript (ES6+), TypeScript
  - Vue.js, Nuxt.js
  - Tailwind CSS, Bootstrap, SASS
  - Responsive & Mobile-First Design
- **Back-end Development**
  - PHP, Laravel
  - RESTful API Development
  - Authentication & Authorization
  - MVC Architecture
  - Basic knowledge of OOP & SOLID principles

- **Databases**
  - MySQL, SQLite
  - MongoDB
- **Tools & Workflow**
  - Git & GitHub
  - Clean Code Practices
  - Basic Performance Optimization

PROJECTS

❖ Hisouby - Mathematics Learning Platform

A full-stack single-page application (SPA) developed with Nuxt.js, utilizing Firebase Firestore for real-time data management and Firebase Authentication for secure user access. Deployed on Firebase Hosting. Designed as an interactive mathematics learning platform for students from elementary to high school levels.

- **Key Features:**
  - Secure user authentication using Firebase Authentication
  - Structured math exercises categorized by grade level
  - Real-time data synchronization with Firebase Firestore
  - Progress tracking system to monitor student performance over time
  - Performance dashboard with dynamic statistics and progress visualization
  - Instant feedback system for submitted answers
  - Responsive, mobile-first user interface
  - Cloud deployment via Firebase Hosting
- **Tech Stack:**
  - Nuxt.js – Tailwind CSS - Firebase Firestore - Firebase Authentication - Firebase Hosting

❖ YourMenuPage – Online Menu Management Platform

A full-stack single-page application (SPA) built with Laravel, Inertia.js, and Vue.js. The platform enables restaurants and coffee shops to create, manage, and publish digital menus through a secure and user-friendly dashboard.

❖ **Key Features:**

- Secure authentication and session management using Laravel Sanctum
- Role-based access control for administrators and business owners
- Dynamic menu management with full CRUD operations
- Category and item organization with relational database structure
- Responsive dashboard interface built with Vue.js
- RESTful API architecture with structured validation and error handling
- Optimized database queries using Eloquent relationships

❖ **Tech Stack:**

- Laravel - Inertia.js - Vue.js - Laravel Sanctum - SQLite - Tailwind CSS
